

TO THE STOCKHOLDERS

For the six months ended June 30, 2006, the investment return to our stockholders was 4.9% (assuming reinvestment of all dividends and distributions). The net asset value per Common Share increased by 1.7%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 2.7%. For the twelve months ended June 30, 2006, the return to our stockholders was 19.5%, and the return on the net asset value per Common Share was 11.6%; these compare with a return of 8.5% for the S&P 500. During each period, the discount at which our shares traded continued to fluctuate and at June 30, 2006, it was 8.7%.

As set forth in the accompanying financial statements (unaudited), as of June 30, 2006, the net assets applicable to the Company's Common Stock were \$1,130,643,127, equal to \$39.52 per Common Share.

The increase in net assets resulting from operations for the six months ended June 30, 2006 was \$17,911,615. During this period, the net realized gain on securities sold was \$76,478,198, and the decrease in net unrealized appreciation was \$57,871,637. Net investment income for the six months was \$5,255,054, and distributions to Preferred Stockholders amounted to \$5,950,000.

During the six months, 439,600 shares of the Company's Common Stock were repurchased for \$16,209,356 at an average discount from net asset value of 9.5%.

Stock markets declined globally in the quarter just ended, erasing most of their year-to-date gains. Foremost among the litany of concerns threatening equities would appear to be Federal Reserve policy, specifically whether a seventeenth consecutive rate hike is likely to be followed by further tightening. Others include the effect of higher energy prices on consumer spending and the prospect of a sharp decline in the housing market.

While the combination of higher interest rates, rising inflation and slower growth may continue to have a moderating influence on investment returns, the outlook is not without cause for optimism. The U.S. economy is expanding, earnings and dividends are growing and job creation is vigorous, while around the world the absence of recession is notable.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend and distribution payments, financial reports and press releases, is on our website and has been updated through June 30, 2006. NOTES TO FINANCIAL STATEMENTS (Unaudited)

General American Investors

1. **SIGNIFICANT ACCOUNTING POLICIES** - General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. **SECURITY VALUATION** Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Securities traded primarily in foreign markets are generally valued at the preceding closing price of such securities on their respective exchanges or markets. If, after the close of the foreign market, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Corporate discount notes are valued at amortized cost, which approximates market value. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. **SHORT SALES** The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. **FEDERAL INCOME TAXES** The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. **INDEMNIFICATIONS** In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

e. **OTHER** As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. **CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS** - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 28,610,799 shares and 8,000,000 shares, respectively, were outstanding at June 30, 2006.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, *Classification and Measurement of Redeemable Securities*, which require that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

**REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statement of investments, as of June 30, 2006, and the related statements of operations and changes in net assets and financial highlights for the six-month period ended June 30, 2006. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended December 31, 2005 and financial highlights for each of the five years in the period then ended and in our report, dated January 18, 2006, we expressed an unqualified opinion on such financial statements and financial highlights.
